iBasis is the new name. Howell delivers the new theme.

There's a new way to communicate around the globe: IP (Internet Protocol) Telephony, which uses the Internet instead of traditional telephone lines to connect calls. VIP Calling of Burlington, MA has developed technology that makes the voice quality and connection reliability of IP calls the equal of the traditional telephone system. It's a breakthrough so dramatic, the company decided to change its name. Then it wanted a whole new positioning.

Howell & Associates came through with a theme line that calls attention to iBasis's unusual name while at the same time sending a strong message of the revolutionary nature of the company.

Opportunity begins with i establishes the company as aggressive yet confident that iBasis is where the real action is. The twist of "begins with i" immediately links the new theme line to the company name. An ad campaign that plays off these elements is currently under development for the company.

If your company wants to stand out, here's your opportunity. Call 617-630-9091 or email: mh@mhowell.com
